

Islamic Republic of Afghanistan Ministry of Energy and Water

Energy Sector Country Report

Presented by: Mohammad Shafiq Hameedi

Afghanistan Current Energy Policy and Measures

- Energy Policy Doesn't exist
- Electricity Policy 2003 – 2010 (The only policy under the Energy Sector)
- Afghanistan National Development Strategy (Energy Sector Strategy).
- Institutional Framework (MoEW, MRRD), DABS, Donors, NGOs, Private Sector, Communities....

Energy Demand and Supply

- **Projected Actual Capacity (1,116.13 Mega Watt)**
- **Estimated Demand (4,212 Mega Watt)**
- **Surplus or Deficiency (-2,348.7 Mega Watt)**

Major difficulties and bottlenecks currently faced in formulating energy policies in Afghanistan

- **Institutional Framework (Energy Policy Department Recently Established and Formalized under MoEW, Policy Formulation being started up)**
- **Lack of professional cadre**

Expectations from the course

- **Energy Policy Formulation/ Case Studies**
- **Case Studies of the New Technologies**
- **Energy survey techniques and information management including Analytical approaches for energy demand and supply.**
- **Project Cycle Management**

THANK YOU
