

July 1, 2021

The Institute of Energy Economics, Japan

Creation of CCUS Group

We are pleased to announce that the Institute of Energy Economics, Japan (IEEJ) launched CCUS Group under Fossil Energies & International Cooperation Unit on July 1, 2021.

CCUS group is in charge of researches of the following areas:

- Technologies, policies, business models, and other relevant issues of CCUS to decarbonize the use of fossil fuels.
- Supply chain development of carriers of hydrogen after decarbonization including the direct utilization of such carriers as ammonia.

Please refer to the attached organization chart.
