

July 1, 2022

The Institute of Energy Economics, Japan

**Creation of "Renewable Energy Group", "New Energy System Group"  
&  
"International Partnership Group"**

We are pleased to announce that the Institute of Energy Economics, Japan (IEEJ), has newly launched groups under Electric Power Industry & New and Renewable Energy Unit on July 1, 2022.

Each group is in charge of the following areas:

**Renewable Energy Group**

Survey and analysis of domestic and foreign renewable energy policies and related themes

**New Energy System Group**

Survey and analysis of a variety of next-generation energy systems (hydrogen and storage batteries)

**International Partnership Group**

International capacity building operation in the field of new energies

Please refer to attached organization chart.
