The Institute of Energy Economics, Japan

Partnership Award for Collaboration and Contribution to Energy Efficiency in Qatar

On December 4th, 2023, The Institute of Energy Economics, Japan (IEEJ) was honored with the “Partnership Award” by Qatar General Electricity and Water Corporation (KAHRAMAA). The award recognizes the IEEJ’s collaborative efforts and contributions to the national energy conservation program in Qatar, known as Tarsheed. The recognition was bestowed at the “The Tarsheed Energy Efficiency Forum 2023”, held in Doha, Qatar, on the same day.

With supports from the Qatar Government and the Japanese Government (the Ministry of Economy, Trade, and Industry), IEEJ has, since July 2021, contributed not only to Qatar’s current efforts to achieve Tarsheed’s energy conservation targets but also to the future developments of Qatar’s energy efficiency policies.

Going forward, IEEJ is committed to elevating its level of supports to its member entities, government institutions, research institutes, and other global partners, leveraging its vast knowledges and extensive experiences in the field.
