

The 12th IEEJ Webinar for the World

On November 7th, we are honored to host the 12th IEEJ Webinar for the World. "IEEJ Webinar for the World" is a webinar which is intended to, exclusively in English, offer not only our members but also stakeholders of think-tanks, international organizations, and other institutions from overseas with IEEJ's latest research and analyses on global energy agendas such as carbon neutrality and other conundrums surrounding us.

In the 12th IEEJ Webinar for the World, IEEJ will present a quick look of "IEEJ Outlook 2024", IEEJ's newest global energy outlook for 2050, which IEEJ will release on October 20th. The "IEEJ Outlook 2024", which is a "forecast based outlook", presents very different energy perspectives for the future than those presented by "back-cast based outlooks". In case that you participate in the 445th Forum on Research Works on October 20th, please bear in mind that the content itself will be almost the same as the forum above. We are very much looking forward to your participation.

1. November 7th, 21:00-21:45PM JST/12:00-12:45PM GMT/07:00-07:45AM ET

2. Webinar App.: Zoom
