

## The 14<sup>th</sup> IEEJ Webinar for the World

We are honored to host the 14<sup>th</sup> IEEJ Webinar for the World. “IEEJ Webinar for the World” is a webinar which is intended to, exclusively in English, offer not only our members but also stakeholders of think-tanks, international organizations, and other institutions from overseas with IEEJ’s latest research and analyses on global energy agendas such as carbon neutrality and other conundrums surrounding us.

In the upcoming webinar, we will feature “LNG Market Outlook in Light of Recent Developments including Pause on Pending Approvals of LNG Exports from USA” based on our 446<sup>th</sup> Forum on Research Works of last December (presented in the Japanese language only). In addition to the market outlook, the Biden Administration’s announcement on a pause to the LNG export authorization process to non-FTA countries will be covered. We are very much looking forward to your participation.
