

The 22nd IEEJ Webinar for the World

We are pleased to invite you to the **22nd IEEJ Webinar for the World**.

The IEEJ Webinar for the World, conducted exclusively in English, aims to share the IEEJ's latest research and analysis on global energy issues—such as carbon neutrality and other pressing challenges—not only with our members but also with stakeholders from think tanks, international organizations, and institutions worldwide.

The upcoming webinar will feature:

Using Japan as a case study, this webinar examines the impact of large-scale variable renewable energy (VRE) deployment on power system integration costs. It also assesses measures to reduce these costs, with a focus on flexibility technologies and supply-side options.

We look forward to your participation.

1. Date and Time:

October 30, 2026, at 04:00-04:45 PM JST

(03:00-03:45 PM SGT / 11:00-11:45 AM GST / 07:00-07:45 AM GMT)

2. Platform: Zoom

3. Agenda:

04:00-04:20 PM JST

Presentation:

“Japan's Energy Scenarios Toward 2050: Strategies for Reducing Power System Costs”

Hideaki OBANE, PhD,

Senior Economist,

Energy and Economic Analysis Group (EEA),

Energy Data and Modelling Center (EDMC)

04:20-04:45 PM JST

Q&A Session

(Moderator: Ichiro KUTANI,

Board Member,

Director, Energy Data and Modelling Center (EDMC))

04:45 PM JST

End of Webinar

4. Registration: https://us02web.zoom.us/webinar/register/WN_nbDmkLGhSbGfsXpnidvQcQ

5. Language: English (* No Japanese interpretation will be provided)
