

The 8th IEEJ Webinar for the World

On November 10th, we are honored to host the 8th IEEJ Webinar for the World. “IEEJ Webinar for the World” is a webinar which is intended to, exclusively in English, offer not only our members but also stakeholders of think-tanks, international organizations, and other institutions from overseas with IEEJ’s latest research and analyses on global energy agendas such as carbon neutrality and other conundrums. The first and foremost objective of this webinar is to discuss with participants from all over the world a set of energy challenges faced with Japan and Asian countries.

For this 8th webinar, we will feature “IEEJ Outlook 2023” which was justly released on October 19th. We have been preparing this flagship global energy outlook since 2004 and it is one of the very few long-term global energy outlooks issued by independent research organizations in the world. In case that you have already participated in the 442nd Forum on Research Works on October 19th, please bear in mind that the content itself does not differ from what you learnt in Japanese at the mid of this October.

We are very much looking forward to your participation.

1. November 10th, 21:00-21:55PM JST/12:00-12:55PM GMT/07:00-07:55AM ET

2. Webinar App.: Zoom
