

The 9th IEEJ Webinar for the World

On January 31st, we are honored to host the 9th IEEJ Webinar for the World. “IEEJ Webinar for the World” is a webinar which is intended to, exclusively in English, offer not only our members but also stakeholders from global think-tanks, international organizations, and other institutions with our latest research and analyses on energy agendas such as carbon neutrality and other conundrums. The first and foremost objective of this webinar is to discuss with participants from all over the world a set of energy challenges faced with Japan and Asian countries.

For this 9th webinar, we will feature “Global agenda for G7 Hiroshima Summit -Energy security, Environment, and Economic Efficiency-”, which will be presented by Dr. Ken Koyama, Chief economist and Senior managing director of IEEJ. This presentation will summarize the importance of G7 Hiroshima Summit to address the energy bottlenecks surrounding the globe across the brand-new year 2023, based on his presentation made in Japanese at the 443rd Forum on Research Works on December 27th, 2022.

We are very much looking forward to your participation.
