

## The 9<sup>th</sup> IEEJ Global Energy Webinar

This time, by being honored to host Mr. Peter Wood, Chief Economic Advisor at Shell, we are to going offer our regular webinar focusing exclusively on Shell's updated scenarios. In this webinar, we will feature "Energy Transformation Scenarios" that the Oil major just released the last month. The company have announced their energy scenarios on a regular term; in the updated scenario, upon significant turning points generated by COVID-19, Schell explores for the consequences of near-term choices as well as, in order to meet the goal of the Paris agreement, discusses about the required pace of change in energy usage/supply.

In this session, through the brand-new scenarios of Shell that has been highly renowned for their scenario analysis, you can expect for informative insights about what our society, economy, and environment will look like in the future. QA session is to follow the presentations. We are much looking forward to seeing you again in the 9<sup>th</sup> IEEJ Energy Webinar.
