

The 11th IEEJ Global Energy Webinar

On May 11th, we are honored to welcome from International Energy Agency (IEA), Ms. Toril Bosoni, Head of Oil Industry and Markets Division, Dr. Timur Guel, Head of Energy Technology Policy Division, and Mr. Jacopo Tattini, Energy Technology and Transport Modeller, to offer the 11th IEEJ Global Energy Webinar featuring both “Oil 2021” and “Global Electric Vehicles Outlook 2021”

“Oil 2021”, which was released on March 17th, has been reputed to be very insightful: in this report they see that global Oil demand will recover to pre-pandemic levels around 2023 while global Gasoline consumption, due to not only further improvement in efficiency but also EV rollout, is unlikely to return to its 2019 level. On the other hand, “Global Electric Vehicles Outlook 2021”, which is to be released on April 29th, with historical analysis with projections to 2030, will examine key areas of interest such as electric vehicle and charging infrastructure deployment.

In the upcoming event, from the prominent experts of IEA, you can expect for informative insights about the future outlook of Oil as well as EV. We are hoping that you will join this extraordinary webinar.

1. Time/Date: 09:00-10:05 CEST (16:00-17:05JST), May 11th, 2021

2. Webinar App.: Zoom

3. Agenda:

09:00~09:05CEST(16:00-16:05JST) Introduction (MC: Mr. Kunie Taie, IEEJ)

09:05~09:45CEST(16:05-16:45JST)

1st Presentation: “IEA Oil 2021”

Ms. Toril Bosoni, Head of Oil Industry and Markets Division, IEA

2nd Presentation: “IEA Global Electric Vehicles Outlook 2021”

Dr. Timur Guel, Head of Energy Technology Policy Division, IEA Mr.

Jacopo Tattini, Energy Technology and Transport Modeller, IEA

09:45~10:05CEST(16:45-17:05JST) QA Session

Moderator Mr. Kunie Taie

10:05CEST(17:05JST) End

Language: English/Japanese (Spontaneous Interpretation)
